

Firewood

General Considerations

Firewood shall be kept neatly stacked, located in the rear yard of residence, and must be kept within the lot. Location should be in such a manner as to minimize visual impact. In certain cases, screening may be required. Under no circumstances is firewood to be stacked in the common area.

Specific Guidelines

A firewood pile that complies with the following guidelines does not need approval. Any variation from these guidelines requires submission of an application for review.

- Firewood piles should not exceed 1 ½ cords of cut wood (1 cord measures 4' deep x 4' high x 8' long).
- Firewood piles shall not exceed 4' in height for safety reasons.
- Under no circumstances shall the pile exceed 12' in length.
- Firewood piles are not permitted on front porches or in front yards.
- Firewood stacks must contain firewood only, no storage of debris.

Submission Requirements

- Signed and dated application form.
- Description of the project.
- A copy of the property plat showing the house, any accessory structures, significant vegetation, property lines and the location of the firewood pile.
- Photographs showing the house and site marked to show the location of the firewood pile.
- Dimensions of the proposed firewood pile.
- Where applicable, provide a planting plan indicating the proposed type and location of vegetation or other screening, existing or proposed.
